How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy liver. When the liver is torpid the bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons' Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER BEEN DISAPPOINTED.
As a general family remedy for dyspepsia, torpid liver, constipation, etc., I hardly ever see anything else, and have never been disappointed in the effect produced. It seems to be almost a perfect cure for all diseases of the stomach and bowels.

W. J. McKeay, Mason, Ga.

Canibals in a Western Camp.
A horrible discovery has been made in the mountains of South Dakota, about 300 miles from the border, which indicates that a party of lost people have been driven to the dire extremity of feeding upon each other.

In a deep canyon, where the camp was sheltered from the storms, there were found the remains of a camp, and at the fire, in the ashes, were several bones and pieces of a human body which had been cooked and partly eaten. There had evidently been five or six in the party and three of them had been killed to furnish food for the others, for there were three skulls found, and from their size it is evident that all of them were those of women or children, for they were much smaller than the skull of a man. The bones of the legs and arms were found, and to one leg bone there was still a quantity of cooked flesh hanging. The survivors had evidently got some other meat and left the undeveloped part of the last victim in the fire, with the intention of burning it up, but the fire was put out by a storm and discovery thus made possible.

It is believed that the party originally consisted of two men, two women and a boy, and that they passed through this place last fall on their way to the west. If such was the case the men have sacrificed their companions in the attempt at self preservation and are now alive. It is understood that the authorities of South Dakota will make a searching investigation and see if they can find out the survivors of the terrible deed.—Cor. Philadelphia Press.

Fifty Tons of Dynamite on Board.
The steamer Al-Ki is lying at the wharf at Port Townsend waiting for the steamer Empire from San Francisco with fifty tons of dynamite. The Al-Ki has a special permit from the postmaster general to carry this dynamite to Juneau, Alaska, and will carry no passengers on this trip. A protest has been sent to Washington against permitting the Al-Ki to carry mail on the trip with dynamite, but no answer has yet been received. Harbor Master Jones has instructed the chief of police to prevent the transfer of the cargo of dynamite from the steamer Empire to the Al-Ki at the wharf. Jones says the safety of the city demands that the cargo be transferred out in the bay, at a proper distance from shore.—Cor. Seattle Post-Intelligencer.

Statue to Bismarck Postponed.
A meeting of the central committee for the erection of a monument to Prince Bismarck was held recently under the presidency of Herr von Levetzow, president of the reichstag, at which it was decided to invest the whole of the contributions, amounting to over 1,014,438 marks, in the new imperial 3 per cent. loan. It was also resolved not to select the site or invite artists to send in designs until the question of the site of the monument to be erected in honor of the Emperor William has been settled.—London News.

Price of Coffins Going Up.
The Cleveland coffin trust has been reorganized and prices are to be advanced 30 per cent. Sarah Leachard's bid of having her coffin made to order under personal supervision has found many followers since this notice of advanced rates, and coffins are taking the place of the old fashioned eight day clocks in the halls of the fashionable. Of course there is no question of economy in this.—Exchange.

Isaac Watts was a Little Man.
He said jocosely to six of his tall quizzing friends who asked how he felt among so many men, "that he was a sixpence among six pennies, worth them all." SOZODONT is just so; there may be many preparations for the teeth, but it is worth them all.

One Cent Instead of \$2,000.
In the circuit court for Cecil county, Md., yesterday, the jury in the case of Mrs. Anna Hughes, of Havre de Grace versus the Philadelphia, Wilmington and Baltimore Railroad company for \$20,000, rendered a verdict for one cent damages.

At the March term of court the plaintiff received a verdict for \$3,500, but the judge set the verdict aside, claiming it was out of all reason, and put the damages at \$2,000. The plaintiff refused to accept this, preferring a new trial. The plaintiff claims that she got on one of the defendant's trains to go to Havre de Grace, and that the train did not stop to let her off, while the conductor and several employees of the railroad company claim the train stopped but she failed to get off.—Philadelphia Press.

Absolute Safety in Creeds.
"There is no danger in Creeds," said an old miner. "All you have to do when guns begin to pop is to lie down on the floor and let 'em walk all over you till the excitement is over."
"I was called one evening recently to see a couple of women," said the oldest doctor in camp, "and as I was writing a prescription gun began to pop out on the street right in front of the cabin. As half inch bullets are poor protection from stray bullets, I dodged behind a little iron stove and the women dropped down on the floor behind a bureau. When the shooting ceased I finished writing my prescription and departed. No, there is no danger if one is careful."—Colorado Sun.

The Cost of the Chilian War.
The recent civil war in Chili cost the victors, the Congressional party, \$15,000,000, according to a recent estimate made by the Chilian newspapers. Of that amount \$55,000 was contributed by Senora Dona Juana Edwards, the mother of Don Augustin Edwards, minister of finance, from her private fortune. The cost of the war to the Chilian partisans has not been figured out, perhaps because they lost everything, and it is a big thing to estimate on Children Dry for Pitcher's Castoria.

DOCTOR ACKER'S ENGLISH REMEDY

Will stop a Cough in one night, check a Cold in a day, and CURE Consumption if taken in time. IF THE LITTLE ONES HAVE WHOOPING COUGH OR CROUP Use It Promptly. A 25 cent bottle may save their lives. Ask your druggist for it. It Tastes Good.

OPPOSED TO A MILITARY POST.

It is telegraphed from Virginia City that the bill introduced in Congress by Senator Stewart providing for establishing a military post at Reno is viewed with marked disfavor by members of the Miners' Unions. The miners look upon it as an entering wedge for the reduction of wages, and think the soldiers at the post would be used against the members of the unions should they resist an attempt to introduce cheap labor in the Comstock mines. "The miners' suspicion that the bill is fraught with mischief to their Union," the dispatch says, "is well founded. There are no hostile Indians in the State, and there are no interests requiring military protection. Should there be an uprising among the Putes and other tribes the Nevada National Guard is considered ample to protect the property and persons of the whites from injury. Companies of the National Guard are composed exclusively of miners who would naturally side with the unions should an attempt be made to introduce cheaper labor in the mines. The Miners' Unions of Storey and Lyon counties number 2,500 members."

As the Virginia City papers say nothing about the Miners' Union at that place being opposed to the establishment of a military post at Reno it is possible that the Associated Press news gathered on the Comstock attributed the origin to an idle rumor of the Miners' Union. Surely the Union knows better than to object to the establishment of a military post on such a flimsy pretext, and should repudiate all responsibility for the dispatch. The establishment of a post at Reno could in no manner affect the wages of miners or of anybody else in Nevada. Should trouble ensue between the miners and mine owners the civil and military powers of the State would have to be exhausted before the Federal Government would interfere. Under our system of government the Governor of Nevada would have to call upon the Federal authorities for assistance before United States troops would be ordered out.

But it seems like an insult to the miners to place them before the world as preparing to resist the local or Federal authorities while at the present time Nevada Indians are not to be feared, and over a year ago, during the Mesquite craze, everybody recognized the necessity of having a military post at some central point in the State. Within the last dozen years efforts have been made to have such a post located at Carlin, Winnemucca or Reno and it never was surmised that the object of establishment; the post was to intimidate miners, until the Associated Press agent in Virginia City conceived the idea.

NO HOPE FOR FREE COINAGE

Dispatches from Washington say free coinage is as dead in the Senate as it is in the House of Representatives. President Harrison summoned a number of his advisors into his presence and told them it would be ruinous to the party to have the Republican Senate pass a free coinage bill after the Democratic House had refused to do so. The lecture had the desired effect and Senators Paddock, Squire, Pettigrew and others, who were disposed to favor Stewart's free coinage bill, left the White House determined to oppose it. The silver Senators have given up all hope, but as Stewart is tenacious he will endeavor to press his bill to a vote and get Senators on record for or against it.

It is charged that Wall Street money has been freely expended in both Houses of Congress to defeat the Silver bill. The Cleveland influence was against it on the Democratic side and Harrison used the whole power of the Administration to prevent Republicans from supporting it. The result of the three influences was sufficient to prevent its passage in the House where only 137 Democrats and 11 Republicans voted against tabling the bill. Now the same influences are operating against the Stewart bill in the Senate and it is doubtful if it can be brought to a vote.

It is thought probable that the Bland bill may be considered again in the House after the Rhode Island election, which takes place next Thursday. From motives of policy Eastern Democrats do not care to pass the bill lest it might injure them in New York and New England. The gold bug members charge that the party is under no obligations to the silver producing States, as there are only three Democratic Congressmen from the State west of Kansas and Nebraska. They say the efforts of the Democrats to remonetize silver are not approved in those States, while to persist in those efforts will cost the party every Eastern State. Therefore they favor postponing action on the Silver bill until after the Presidential election which, it is expected, will determine whether or not the country wants free coinage.

BRIGADIERS AND PENSIONS.

The Carson Tribune, which with hope in its heart and an eye on the mint, incessantly toots for Harrison, asserts that the Brigadiers in Congress are opposing the payment of pensions to Union soldiers. It is rather late to attempt to reopen the bloody chasm, especially when Guerrilla Moseby, Fort Pillow Chalmers and Repudiator Muhone are on the Republican side. But aside from that consideration there is no ground for fault-finding with the present House of Representatives on the pension business. The Committee on Invalid Pensions is composed of fifteen members, only two of whom, Taylor of Tennessee and Fyan of Missouri, are from the South. Taylor is a Republican, and Fyan and the Northern Democratic members of the Committee served in the Union army. Every measure relating to pensions is referred to that Committee, and as a majority of the members fought for the Union, it is not

probable that any injustice will be done the pensioners.

The Tribune should endeavor to emerge from the cloud of partisan prejudice in which it is enveloped and devote its talents to the discussion of living issues. It should let its light shine on the silver, tariff, mint or some other live question, and not endeavor to revive issues which were settled at Appomattox by brave men before a majority of the present inhabitants of the United States were born.

An Italian Shoots His Wife and Brother-in-law and Then Kills Himself—A Verdict for \$2,000—Weather Forecasts—Weavers On a Strike.

News From Japan.

SAN FRANCISCO, April 1.—The steamer Gaelic arrived this evening from Hong Kong and Yokohama. The foreign residents at Shanghai at a public meeting, adopted resolutions to petition the Government of the United States, and Great Britain to bring pressure to bear on the Chinese authorities for the suppression of vile, anti-foreign literature published and circulated in Hunan.

The Gaelic arrived with several cases of smallpox on board and the passengers will be placed in quarantine.

The U. S. S. Albatross, which ran aground February 26th at Yokohama, was not damaged much and after being towed on proceeded on her cruise the next day.

As a mark of the excitement with which the late electoral campaign has been carried on, it is noted that the Japanese Government suspended forty papers during the first two months of this year. Election districts are gradually becoming quieter, but reports of disturbances are still coming in.

Trouble at Yokumo still continues, and fifteen more gentlemen have proceeded there.

In Koobi, party feeling ran high. The local Secretary of Hata district was murdered, his body being hacked to pieces during a fight between rival factions. Political parties have resorted to boycotting each other. Following are the official returns of the killed and wounded during the election troubles:

Killed, 22; severely wounded, 45; slightly wounded, 173.

The Japanese Government proposes exhibiting at the Chicago World's Fair a model of the celebrated Golden Palace Temple of Kyoto. The model will be a permanent structure.

Up to March 9th Lieutenant Hetherington had not been tried for killing George Gower Robinson, and Yokohama papers are complaining at the delay. There has been considerable newspaper discussion concerning the action of the coroner's jury in charging Hetherington with willful murder, as it is claimed the evidence did not show that he killed Robinson.

The smallpox epidemic in Japan is decreasing in severity. The total number of cases is 7,400, 1,500 being fatal.

There is a general desire to have the United States represented in these waters by better warships. When Admiral Harman came to Yokohama to relieve Admiral Belknap, he was forced to come on a mail steamer, as his flagship was unable to steam against the monsoon.

A man and his wife were arrested at Tokyo for a series of murders. They had adopted six children at various times for the sake of obtaining the money that was given with each child. They murdered all the children, and were about to kill a seventh when arrested.

Weather Forecasts.

SAN FRANCISCO, April 1.—The weather conditions and general forecasts of a storm this evening forms a trough from Washington southward to Southern Nevada with rains general along the slope except in Utah, Arizona and Southern California, and in these sections rains are anticipated in the near future by the southward movement of the disturbance after it centers in Southern Nevada, which cause will be effected as soon as the pressure begins rising on the Upper California and Oregon coasts. There was a general slight rise in temperature of the several stations, except in Sacramento and San Joaquin valleys, where cloudiness and rains gave a lower maximum temperature than yesterday.

A Verdict for Two Thousand Dollars.

PHOENIX, April 1.—Pedro Britche, an employee of the Southern Pacific Railroad, who brought suit against the company for \$15,000 for damages sustained in a railroad wreck some months ago, received a verdict this evening for \$2,000. The railroad will appeal the case.

Weavers on a Strike.

OREGON CITY, Oregon, April 1.—About fifty weavers in the Oregon City Woolen Mills struck this morning because the management refused to discharge a foreman that is objectionable.

Shot His Wife and Brother-in-law.

SAN FRANCISCO, April 1.—Curtis Lawrence, an Italian laborer, to-day shot and fatally wounded his wife and brother-in-law, Jacob Cavaba, and then killed himself. Galiardo lived near Telegraph Hill and has always been a hard working man, but rather dightly at times. No cause is known for the crime, and it is supposed he was insane. Cavaba was visiting his sister, Mrs. Galiardo, this afternoon, when Galiardo rushed in and fired two shots from a revolver at Cavaba. Both shots took effect in his head and Cavaba fell unconscious to the floor. Galiardo then fired two shots at his wife, one striking her in the head and the other missing. He then struck her with his revolver several times, stunning her. The madman then fired a bullet through his own heart, dying instantly. Cavaba and his sister were removed to the Receiving Hospital, where the surgeons stated their wounds were very serious and would probably result fatally.

A Valuable Present—Special Customs Agents in San Francisco.

SAN FRANCISCO, April 1.—It is reported that the Colton mansion on Nob Hill has been purchased by George M. Pullman of Chicago as a wedding gift to his daughter, who is to marry Frank Carolan of this city. The house is valued at \$200,000.

There are ten special agents of the Customs Department now in San Francisco and they are thought to be investigating the gigantic frauds in importations. The discovery of the frauds practiced by Reese Brothers has made the Treasury officials think there are more to be unearthed.

Melbourne Fails to Get It.

PHOENIX, April 1.—A special from Hermosillo, Mexico, states that the efforts of Melbourne, the alleged rain maker, to produce showers, failed. The Government made him a proposition of \$2,500 if the experiment was successful, the trial to continue not over five days. During the first three days not a cloud appeared. On the fourth day some signs made their appearance, but the judges were not satisfied and declared the attempt a failure. Melbourne declared, however, that he got a tenth of an inch of water, and will take legal proceedings to collect the bonus.

H. P. KRAUS, P. M.

The Cigarette Habit

The W. C. T. U., last evening, at the Methodist Church favored our people with a very interesting programme of songs and recitations, followed by a lecture on cigarettes by Professor Bray. He treated the subject from a scientific standpoint, showing the effects of tobacco upon the systems, intellect, and souls of the young; the extent of the habit, its cost, financially, to the country and to individuals; and methods for the prevention and cure of the habit. Ten million dollars yearly for cigarettes is a large sum; add to this the thousands of dwarfed bodies and shattered minds resulting therefrom, and the cost is incalculable. Some way must be found to stop this avalanche of ruin to our boys.

A Gift Repaid.

Dr. A. Billhardt, of Sandusky, O., many years ago, while in Philadelphia one evening, walking through a well known quarter of that city, was stopped by a pale faced gentleman who begged piteously for assistance. His story of wrongs and misfortune was so plausible that the doctor handed him the amount asked for and was on the point of continuing his walk when the stranger stopped him again, asked his name and address, promising that when fortune smiled upon him he should be well remembered.

Recently, upon opening a small package directed to him from Melbourne, a mining town in South America, the doctor found glistening in a downy bit of cotton a brilliant scintillating with all the colors of the rainbow. Inclosed with the gem was a card reading: Dr. A. Billhardt: Dear Sir—Several years ago I met you in the streets of Philadelphia. I was starving and asked you for bread; you gave it to me. For your kindness I return you a stone. It is of great value, but nothing I assure you, in comparison to the gratitude I feel for the kindness you extended. BARON IVO ROSA.

That the doctor was amazed goes without saying, and no wonder. The gem weighs twenty carats and its value is estimated at \$5,000.—Cor. Chicago Inter Ocean.

A Rattlesnake in a Thrashing Machine.

Some days past a large thrashing machine was brought to town. Yesterday, while being opened for repairs, a huge rattlesnake was found in it taking his winter nap. The machine had been hauled about twelve miles. His snake-ship had been somewhat disturbed. He was 6 feet 3 inches long and had eight rattles.—Lockhart Cor. Galveston News.

Wealth in a Miser's Chest.

John Donner, a miserly farmer, who lived alone in his house four miles south of Canton, O., died Monday. Relatives in examining his effects, found an old chest securely locked. It was broken open and \$3,000 in gold, silver and currency was found.—Pittsburg Dispatch.

A GOOD MINSTREL SHOW.

The Denver News says: Richard and Pringle's Minstrels, which began an engagement at the Opera House last night, is a model minstrel show, and demonstrates that the colored minstrel is capable of giving as an attractive as well as more faithful personation of the Southern negro.

The Minstrels will give an entertainment at McKissick's Opera House next Monday evening, April 4th, for which reserved seats can be secured at Pinner's.

Humbag.

It's sound old fashion, and expresses just what you meant, after having purchased something of no account. Now there is no humbag about Simmons Liver Regulator. Some imitation or substitute may be offered you instead, but none will give the relief from Indigestion, Dyspepsia and Biliiousness like the genuine Simmons Liver Regulator. You know it by the Z on every package, and the relief it gives.

MARRIED.

ALLEN—LOWE—In Elko, March 29, 1892, at the residence of Mr. J. A. Plummer, by the Rev. W. H. Houghton, Mr. Taylor Allen of St. Louis, Mo., to Mrs. Hulda J. Lowe of Elko, Nev.

Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are some of the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which tones the stomach and other organs, regulates the digestion, creates a good appetite, and by thus overcoming the local symptoms removes the sympathetic effects of the disease, banishes the headache, and refreshes the tired mind. "I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla—took three bottles. It did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. PAGE, Watertown, Mass.
